

New Standard Lead Times for Warehouse Distributors

As a follow up to our "Expedite Order Premium Policy" bulletin, PTO-POL-38 dated December 15, 2009, Chelsea is pleased to publish a new Standard Lead Times for power take-offs (PTOs), geared adapters, pumps, wet line systems and service components.

We continue to strive to shrink lead times to help distributors schedule stocking orders, manage inventory and meet customer requirements for quality Chelsea products in a timely manner.

On the back page of this bulletin is the new WD channel published lead times. Please make sure everyone in your company that needs this information is provided a copy of this bulletin. The new lead times on the back page of this bulletin will take effect on orders received on or after October 1, 2010.

If you have questions about this bulletin or other technical questions, contact us at:

Notes

- Standard lead times are published by product line as a general guide. Some product options are not available within standard published lead times. If delivery requirements are critical, contact our Customer Service Team at 888-744-8785 or chelseacustserv@parker.com for specific lead times on part numbers or product orders.
- Product models listed above are current production PTO models at time of publication of this document. To acquire lead times for products not listed above, contact our Customer Service Team at 888-744-8785 or chelseacustserv@parker.com.
- Lead times do not include freight time.
- For emergency "Truck Down" orders, please refer to Expedite Order Policy (PTO-POL-38)
