

New Air Shift Assembly - 329648X

Beginning January 2010 all Power Take-Off (P.T.O.) units using Chelsea air valve assembly 328863X will change to a new air valve assembly part number 329648X. This new air valve assembly has the same fit and function as the old assembly, but with some very nice enhancements.

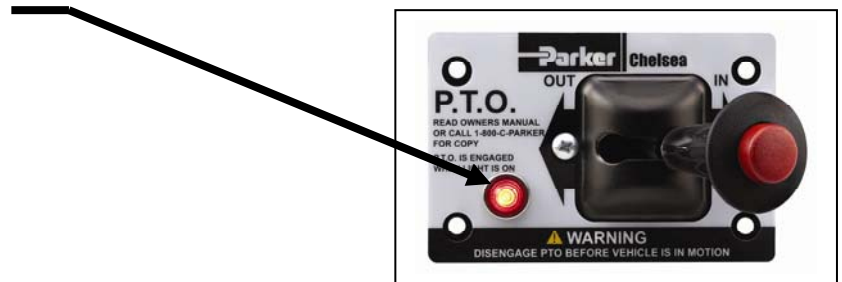

1. New Push to Connect Air Line Fittings –

- Easier Installation of the air lines
- No need to use male connectors to connect to tubing and the valve.

2. New LED P.T.O. Engaged Light –

- Longer Bulb Life
- Brighter in Direct Sun Light
- Less Current Draw
- Less Heat
