

## New Electronic Overspeed Control (EOC) Button

Chelsea has upgraded the ON/OFF button for the Electronic Overspeed Control (EOC) box - P/N 329650X. This new robust button will be part of a running change on all EOC boxes that will be phased-in early October 2015. This will be a drop-in replacement for the outgoing controller.

### Enhancements:

- Mechanical Life – Mfr. rated to 1,000,000 actuations
- Sealed to IP67 (Button Only) to prevent the intrusion of dust and liquids
- Printed circuit board conformal coating for moisture and dust resistance
- Improved tactile feedback when depressed
- Improved illumination around the button
- Shipped factory enabled for stationary or mobile mode
