

Parkrimp® *No-Skive*

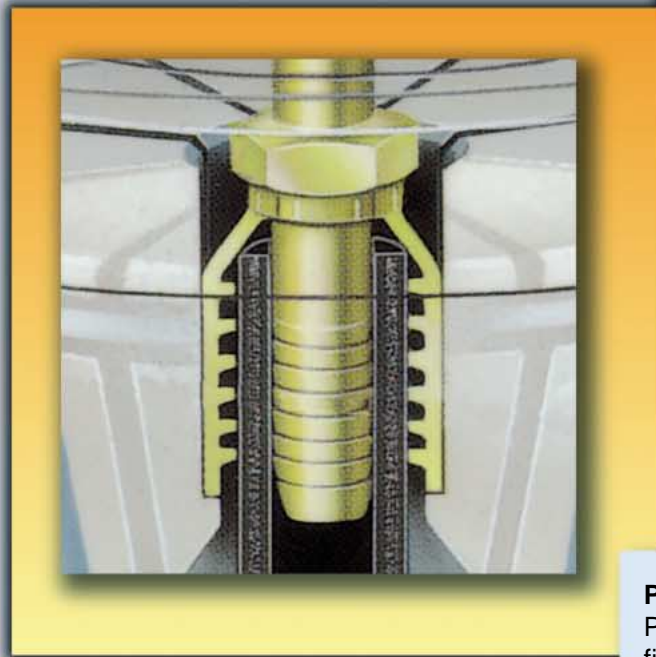

Hose Assembly System The Professional Solution

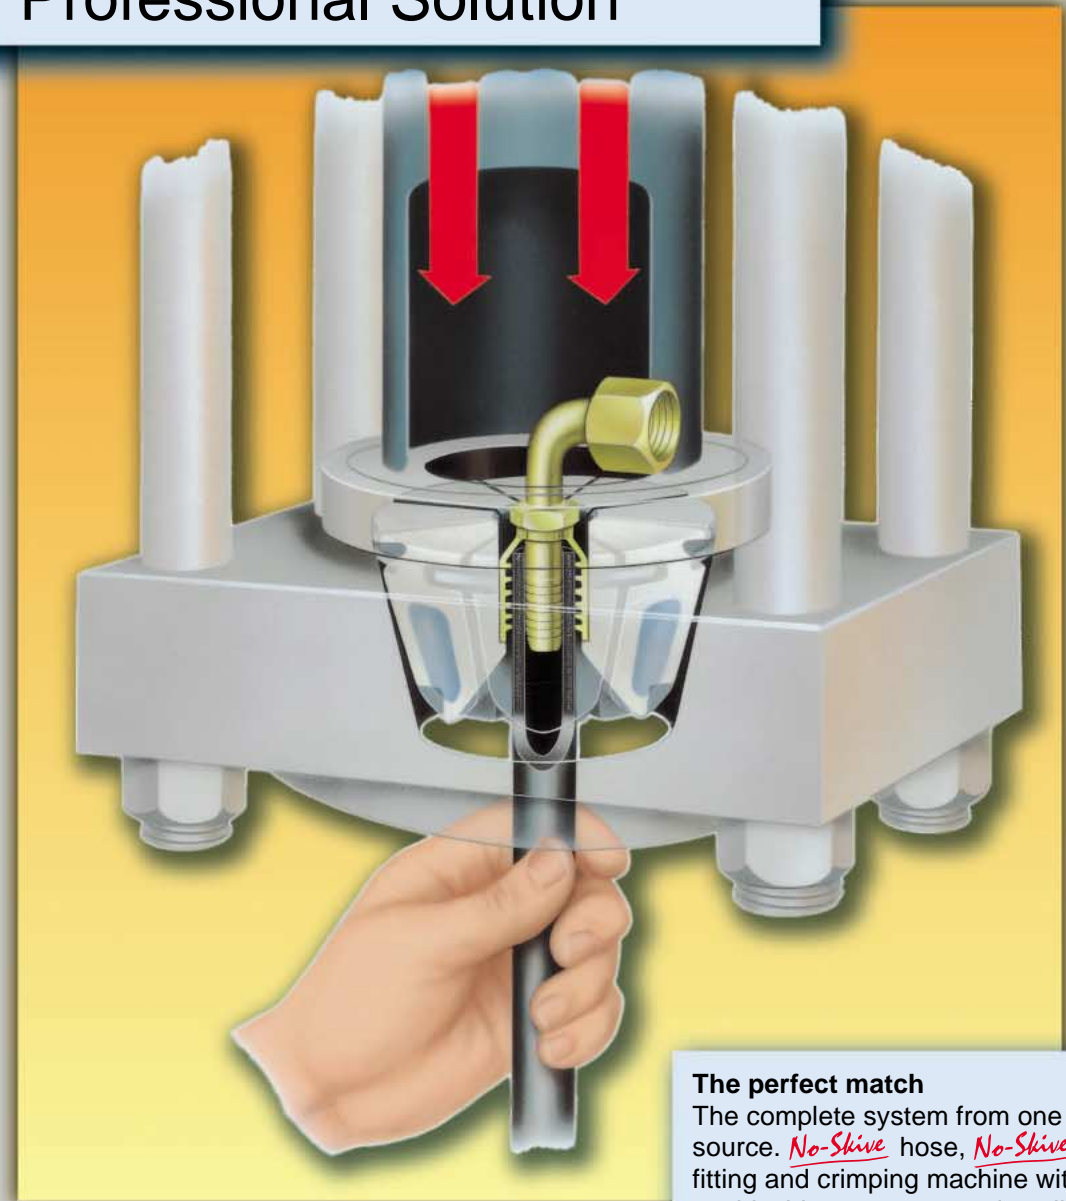

Easy assembly
Fittings are subject to the assembly instructions. The system is DIN, SAE and ISO assured.

Parker's colour-coded die train keeps segments together. No loose parts to mismatch or misplace. The die crimp provides 360-degree gripping power for greater impulse life.

Parkalign®
Parker's exclusive Parkalign® positions the fitting in the dies perfectly every time.

The perfect match
The complete system from one source. *No-Skive* hose, *No-Skive* fitting and crimping machine with world-wide guarantee and availability.

Steel teeth penetrate the hose cover and grip directly on the wire reinforcement.
