CYCLE

Product Application:

The Icount Bottle Sampler from Parker offers instant trending with 6 channel feedback analysis for proper preventative maintenance. The channels are for 6 ACTFD particles size ranges, or for 6 MTD particle size ranges. The IBS features an easy to use interactive touch screen, environmentally controlled pressurized bottle chamber, an internal compressor pump, automated door locking mechanism, sample tube cleaning sleeve that minimizes cross contamination, and an internal printer.

Parker Advantage:

- Knowledge and experience of providing fluid analysis equipment to the market for over 15 years.
- Fluid resistant touchscreen interface.
- Onboard compressor and "shop air" compatibility.

Benefits:

- Cost-effective and economical alternative solution to external laboratory services.
- Repeatable result performances to ISO4406:1999 particle count distributions.
- Sample tube self cleaning sleeve minimizes cross contamination.

ENGINEERING YOUR SUCCESS.
