Cavity Cross Reference for Legacy Product

As Parker acquired numerous companies over the years (Gresen, Racine, Waterman, Sterling, FPS, CEC), we have been and continue to work to convert all of the legacy product to the current product in our catalog.

For the Waterman and Sterling Cartridge Valve product line, to assist our customers in locating a current Parker Catalog valve that fits the existing Waterman or Sterling cavity, the following cross-reference is provided. Please note, However, CEC cavities are already coded as the industry standard and no Gould or Gresen cavity information crosses to industry common cavities.
