

CHELSEA®

Part Number Bulletin PTO-PNI-270

1/1/17

249 Smart Start Output Option

The 249 series PTO is now available with the Chelsea exclusive Smart Start output option.

This features dampens the high torque inertia loads that are common on start-up for compressor and blower applications. It prevents the torque spikes from being transferred back to the transmission and causing damage or premature failure to the PTO or transmission.

PTO Output Option Codes:

SD = 1 ¼" Round Shaft w/ 5/16" keyway

Smart Start is only available on clutch shift PTOs with driveshaft-type outputs.

For more details on Smart Start, see Chelsea PTO Bulletin PTO-TEC-154.
