RE: Supplier Declaration of PFAs Content and Prop 65 PFAs Compliance

Dear Customer:

Parker Hose Products Division (HPD) is committed to delivery of high quality products, compliant with applicable laws and regulations to our customers. HPD recognizes the growing concern regarding per- and poly- fluoroalkyl substances including perfluorooctanoic acid (PFOA) and perfluorooctyl sulfonate (PFOS), collectively known as PFAs or PFAs chemicals, which are generally defined as a class of fluorinated organic chemicals containing at least one fully fluorinated carbon atom ("PFAs").

This impacts only the following product families you may purchase from Parker Hannifin Hose Products Division: 389, 7199, 7282, 7660, and 7660P. Please refer to the attached table to find the specific weight percent of the PFA per linear foot of product, please specify the product, including size to customer technical inquiry.

We understand that you may have questions concerning this announcement. Please contact your sales representative who will work with you to the best of their ability to help.

Sincerely,

Ronald A. Moner, P.E.
Hose Engineering Manager

List of Parker Part Number with Fluoropolymer Liner

Part Number	% Wt Fluoropolymer per length of hose	Fluoropolymer CAS NUMBER
