Subject: California Proposition 65

Part Number/Family Listing: All products supplied by Parker O-Ring & Engineered Seals Division

To Whom It May Concern:

Parker has elected to label all products with the following Proposition 65 warning label:

These products can expose you to chemicals including carbon black (airborne and extracts), antimony trioxide, titanium dioxide, silica (crystalline), di(2-ethylhexyl)phthalate, ethylene thiourea, acrylonitrile, 1,3-butadiene, epichlorohydrin, toluene diisocyanate, tetrafluoroethylene, ethylbenzene, formaldehyde, furfuryl alcohol, glass fibers, methyl isobutyl ketone, nickel (metallic and compounds), lead and lead compounds which are known to the State of California to cause cancer; and to 1,3-butadiene, epichlorohydrin, di(2-ethylhexyl)phthalate, di-isodecyl phthalate, ethylene thiourea, methyl isobutyl ketone, methanol, toluene, lead and lead compounds which are known to the State of California to cause birth defects and other reproductive harm. For more information, go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

Parker products do not intentionally contain every chemical shown on our Prop 65 label, but various other products we manufacture may contain them, either intentionally or as residual trace contaminants. There is no practical way for us to test every shipment of every product for potential trace presence of the hundreds of chemicals listed in Prop 65 to prove that this does not happen.

If there are any questions, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Dan Ewing".

Dan Ewing  
Principal Engineer
