

# DURABILITY IN EXTREME ENVIRONMENTS: PARKER'S RGX SERIES

## Parker's RGX Series SCBA Couplings

Parker's **RGX Series** couplings are built to withstand the extreme temperature environment that is required of the self contained breathing apparatus (SCBA) widely used in the fire rescue community. Beyond meeting the dimensional and performance specifications set by the National Fire Protection Association (NFPA), these couplings also function in colder temperatures than required by the industry standard. Parker's robust seal design promotes longer service life and provides increased durability.

Made in the USA, RGX Series quick couplings are directly interchangeable with existing couplings manufactured to the NFPA 1981 requirements. Additionally, RGX series' protective caps meet the heat and flame resistance specifications of that standard.

### RGX Series Features

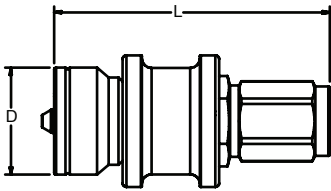

- Conforms to NFPA 1981
- Push to connect operation
- Visual connection indicator
- Meets National Fire Protection Association standards
- Exceeds industry standards for temperature range
- Lightweight design
- Rugged and durable
- Keyed and colored options

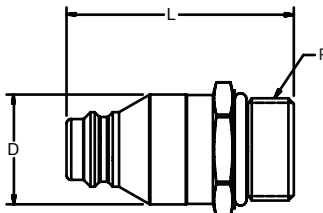

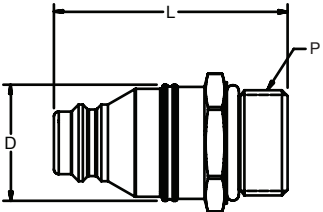

# RGX SERIES SPECIFICATIONS

RGX Series Specifications		
Rated Pressure	Temperature Range	Material
5,500 psig	-40°F to +250°F	Stainless Steel

	Couplers				
	Coupler Part No.	Port	Diameter	Length	Keyed/Color Options
	RGX-C-03-BL	7/16-20 UNF-2B	1.10"	2.85"	Black
	RGX-C-03-BU	7/16-20 UNF-2B	1.10"	2.85"	Blue
	RGX-C-03-CL	7/16-20 UNF-2B	1.15"	2.85"	Clear
	RGX-C-03-RD	7/16-20 UNF-2B	1.15"	2.85"	Red

	Nipple			
	Nipple Part No.	Port	Diameter	Length
	RGX-N-19	7/8-14 UNF-2A	0.93"	1.93"

	Keyed Nipple			
	Nipple Part No.	Port	Diameter	Length
	RGX-N-06	7/8-14 UNF-2A	0.96"	1.93"

	Protective Caps		
	Cap Part No.	Port	Length
	RGX-CAP-07	Nipple Cap	8.50"
	RGX-CAP-02	Coupler Cap	5.80"
