Overview:

Power density is what you will find in the Chelsea 870 Series P.T.O. The new series provides you with a compact housing that helps eliminate clearance issues. Two assembly arrangements are offered that maximize your installation possibilities. High capacity bearings and superior gear designs provide you with torque ratings up to 670 Lbs. ft. for the ultimate performance. There is no need to de-rate the P.T.O. for continuous applications. The superior design of this P.T.O. provides you with all the power you will need. The 870 Series is a 10-Bolt mounting pattern that will fit on today's popular automatic transmissions. It features six shift options four of which are integrated into the P.T.O. housing that require one hose for a simplified installation. Our popular Electronic Overspeed Control (E.O.C.) is also available to protect your driven equipment. Eight internal gear ratios provide you with a wide variety of speeds to meet your application requirements. The direct mount pump flange options are available with our Wet Spline design that provides you with increased P.T.O. and pump shaft life. Versatility, power, ease of maintenance and installation make the 870 Series the only choice for your vocational truck requirements.

- Fire and Rescue
- Waste
- Sewer
- Oil and Gas

Product Features and Benefits:

- Torque capacity up to 670 Lbs. ft. / 908 N.m.
- Electronic Overspeed Control (E.O.C.) protects driven equipment
- Compact housing height reduces clearance issues
- Nine speed ratios
- Integral actuation valve simplifies plumbing and reduces installation time
- Nine output options
- Remote mount valve solves installation interference problems
- Wet Spline pump flange extends P.T.O. and pump shaft life

**Output Option**
- AB = DIN 120 Flange
- AC = DIN 100 Flange
- BA = 1410 Flange with Brake Option
- BB = DIN 120 Flange with Brake Option
- BC = DIN 100 Flange with Brake Option
- RS = Rotatable S.A.E. "C" 2 & 4-Bolt w/1.25* 14T
- RY = Rotatable DIN 5462 4-Bolt
- RZ = Rotatable S.A.E. "B" 2 & 4-Bolt w/1.25* 14T
- XV = 1410 Flange 1.50" 10T Spline

**Assembly Arrangement**
- 3, 5

**Shift Option**
- B = 12V Hydraulic
- D = 24V Hydraulic
- G = 12V Remote Valve w/o E.O.C.
- H = 24V Remote Valve w/o E.O.C.
- K = 12V Hydraulic & E.O.C.
- L = 24V Hydraulic & E.O.C.
