

885 Series Cover Plate Gasket and Parts List Correction

Chelsea engineering has made a part number change to the 885 Series cover gasket 35-P-59 which was a standard paper gasket to a newer rubber coated gasket 35-P-69. This new gasket will provide a better sealing surface between the housing and the cover plate.

Please make the following changes to your 885 Series parts list HY25-2885-M1/US dated October 15, 2001.

1. Page three (3) item 62 - change from 35-P-59 to 35-P-69
2. Page ten (10) item 129 - change from 328897 to 378897
