Tube Fittings

Series S ............................................................ up to 630 bar

- 0.5, 1, 2 and 3 bar

- nut and ring steel, retaining ring

Series L ............................................................. up to 315 bar

- 6 to 38 mm tube o.d.

Product range:

- stainless steel. Combines million times proven EO-2 technology

New high-pressure formed tube generation for steel and

Available with EO tube end or BSPP female thread both ends.

Material

- 1.4571 stainless steel

Series LL ..........................................................  up to 100 bar

- -60°C to +200°C

Standards

- ISO 6149 and DIN 3852, UNF, NPTF

Interchange

- SAE J514, ISO 8434-2

Fluid Connectors Group

Quick Couplings

Rated pressure

- up to 275 bar

Sizes

- 1/4” to 3/4”

Fluid style

- Female JIC 37 Swivels, Male NPT Pipe, SAE J518, Metric ISO 6149, DIN 3852, UNF, NPTF

Hose style

- Female DKOL Swivels, Female DKOS Swivels, Ball lock

Working pressure

- up to 460 bar

Rated pressure

- up to 690 bar

Sizes

- 1/4” to 1.1/4”

Fluid style

- Female JIC 37 Swivels, Male NPTF Pipe, SAE J518, Metric ISO 6149, DIN 3852, UNF, NPTF

Hose style

- Female DKOL Swivels, Female DKOS Swivels, Ball lock

Working pressure

- up to 460 bar

Rubber Hose & Fittings

Thermoplastic Hose & Fittings

NBR, FKM

- up to 110°C

Sizes

- 1/4” to 3/4”

Fluid style

- Female JIC 37 Swivels, Male NPTF Pipe, SAE J518, Metric ISO 6149, DIN 3852, UNF, NPTF

Hose style

- Female DKOL Swivels, Female DKOS Swivels, Ball lock

Working pressure

- up to 160 bar

PTFE hose

- up to 200°C

Sizes

- up to 2”

Fluid style

- Parker Phitec, Parker Phitec Plus, Parker Phitec Plus High Pressure

Hose style

- Parker Phitec, Parker Phitec Plus, Parker Phitec Plus High Pressure

Working pressure

- up to 680 bar
Where corrosion resistance is vital, stainless steel is the perfect material to use. For pneumatic and hydraulic applications in this demanding environment, your connection requirements will be solved by Parker stainless steel products.

The Fluid Connectors Group offers a full range of stainless steel connection solutions:

- Low, medium and high pressure rubber hoses and fittings
- Thermoplastic hoses
- Tube fittings, adaptors, flanges and ball valves
- Pneumatic and hydraulic quick couplings

With our worldwide network of distributors and Parker Service Centres, the Fluid Connectors Group is strategically positioned to provide premier customer service.

For additional product information or to order, please contact your regional Sales Office (listed on the back).

**Warning!**

Failure to follow information on packaging of the products and systems described herein may result in material and property damage, and/or personal injury and death.

The Fluid Connectors Group is committed to meeting non-standard requirements. Several facilities are dedicated to manufacture of special hoses or tube fittings.
